PEACH—ROBERT'S HALE AND DIAMOND KING

Very large; yellow freestone with a red blush; extra highly flavored; extremely hardy; has stood many degrees below zero uninjured. Think of a two-year-old DIAMOND KING tree bearing two bushels of peaches the second year, which sold for \$5.70. Figure one acre or 100 trees at this rate! The heavy bearing ROBERT'S HALE PEACH has produced 10 or 12 bushels per tree from seven-year-old trees. These sold at \$4.75 per bushel here last year. Every home orchard should include ROBERT'S HALE and HARDY DIAMOND KING trees.
